

Nyack Tree Committee Meeting Minutes

May 22, 2023

Attendance: Steve Cea, Marcy Denker, Kathleen Johnson

Spring Planting

Six trees have not leafed out. We will monitor and check with the nursery for guidance/ Refunds if necessary.

DPW Tree Removals

Memorial Park Trees. Having the two dying ash trees and their stumps removed soon would allow for a planting of trees in the view shed of the new memorial bench for Josh Fredrick. The donor would be open to paying for the trees. Marcy to check to see if DPW can do the removals this summer.

Ask DPW to remove dead/dying trees on Hudson and High Ave on the north side.

Elm tree on Artopee that was torn out should be moved to the park in the fall.

Grant for tree inventory update and management plan... Need to apply by June 21.

Tree City sign at the gateway may be considered odd looking so close to the ground. We need to get a few more opinions about whether it should be up on a pole.

A shared doc called Potential Tree Locations is accessible in the Tree Committee Workspace.

Maintenance

Straightening of 2 trees, one on 1st and the other on Bway, as well as pruning the Osage on 1st.
