

## **Nyack Tree Committee Meeting Minutes**

**November 15, 2023**

**Attendance:** Marcy Denker, Elyse Berg, Kathleen Johnson, Steve Cea

### **Fall Planting Day**

- *Planting Day Assessment:* It was very helpful to have two trucks (Phil's and Emily's) delivering the trees starting an hour before the group arrived. Also having the tree trees delivered to Marcy's yard or somewhere where they can be sorted easily and labeled in advance important. The turnout was good, but we didn't have a sign-in sheet. Marcy will send a message to try to capture info on new participants.

*Next time* we should mention appropriate dress. We should have a method (small stakes and string) for aligning adjacent trees on open sites.

### **Fall Maintenance**

- Trunk Guards need to be purchased and placed.
- Staking of two trees on N. Midland and on Hudson to be addressed before next meeting. [Complete]
- Pruning Marcy, Steve and Kathleen will meet to start the fall pruning on 11/16 and will set up further times with outreach to Tree Project list.

### **Updates**

- Pavion Building Inspector was notified and said he would include the improper pruning of the trees in his report
